

Coats for Greyhounds and Galgos in refuges for the winter 2003/2004

(The temperature in Spain, Madrid and the north, can drop to minus 10C or lower)
07/08/2003

We have received, thanks to a supporter and an airline, approximately 1000 new / freshly laundered blankets 1m. x 1.25m which we would like, between now and September, to convert into greyhound coats.

We need HELP please, to sew these before sending them, with the help of another supporter, by BA Cargo, to Spain.

We need please!

Ladies (? and gents) to sew these for us.

(Simply to fold and fasten them under the chin and sew ties on the back)

Car transport

(To deliver boxes of coats to and from our garage, where they are at present, to those who will kindly sew them for us)

Collect up unwanted men's ties

(Each coat needs two ties to be sewn on the back, which will cross under the tummy and tie in a bow over the back)

Any help offered would be welcomed!
